

Aberlea Vet Life Planning

I'm thinking of signing my pet up, what's included?

The stuff we can put a price on:

- | | |
|---|-------|
| • Annual Preventative Care Visit + Vaccines | \$250 |
| • Comprehensive blood panel + urine | \$200 |
| • Dental cleaning + oral exam | \$300 |
| • Spay or neuter (if needed) | \$300 |
| • Sedated exam | \$125 |
| • Full body radiographs | \$405 |
| • Dental radiographs (if needed) | \$106 |
| • Waived exam fees for sick visits | \$70 |

The priceless stuff:

- A relationship with your vet for the pet's life
- Your vet knowing your pet to better advocate for him/her
- A consistent baseline of tests to compare as time passes
- A veterinary team focused only to provide the best care
- Time spent and being heard by your pet's care provider
- Catching problems before they are tougher to work on
- Managing ongoing diseases in a science based manner
- Eliminating wasted time when your pet is sick
